Kill Adult Mosquito
Using **VANISMART** Mosquito Killer
to Disconnect (or Stop) Reproduction Cycle

Mosquitoes are the deadliest insects in the world, they kill at least 725,000 persons every year. Malaria alone kills 400,000 people (mainly children).

Diseases transmitted by mosquitoes includes Malaria, Dengue, Zika Fever, Chikungunya, Yellow Fever, West Nile Virus, Filariasis, Tularemia, Dirofilariasis, Japanese Encephalitis, Saint Louis Encephalitis, Western Equine Encephalitis, Eastern Equine Encephalitis, Venezuelan Equine Encephalitis, Ross River Fever, Barmah Forest Fever and La Crosse Encephalitis, as well as newly detected Keystone Virus.

Regular use of pest repellent results in severe Health and Environment Hazards.

Pesticides like surface sprays, coils, gels and treatments, linger in the environment for days, weeks or even longer after application. Cause Irritation to eyes, nose and throat. Contaminate air, soil or dust that floats in the environment. Burning one mosquito coil amounts to smoking roughly 100 cigarettes, also increases the risk of lung cancer. Chronic exposure to some pesticides can result in damage to the liver, kidneys, endocrine and nervous systems. Pesticides can enter your body through food or drink, skin contact, pesticide-soaked clothing, inhale pesticide vapours, sprays or dust.

A bird or pet may be poisoned if it eats a insect killed by pesticides.

Strong health risk factors for pesticide poisoning on unborn babies and young children, pregnant and nursing women, elderly and sick people.

NO HARMFUL MOSQUITO REPELLANT

NO HARMFUL CHEMICALS. NO PESTICIDES. NO RADIATION. NOISELESS.

Without any chemicals, non-toxic, tasteless, smell free, safety and environmental protection.

About Mosquito Killer

This mosquito killer features a CCFL photocatalyst light which mosquitoes find irresistible, and get attracted to the trap; the fan then sucks the mosquitoes inside and prevents them from escaping leading to air drying and dehydration to kill mosquitoes safely.

ECO-FRIENDLY METHOD

Purely physical mosquito eradication technique kill mosquitoes in a manner completely safe to humans and pets, no electric noise, non-chemical, non-toxin, and non-radiative;

NO CHEMICALS, NO PESTICIDES & ODOR FREE

Get rid of all flying insects and bugs without the use of pesticides or dangerous chemicals. Maintenance free and easy to use mosquito killer; simply plug in the mosquito trap into USB and watch your area become free of all pesky and annoying mosquitoes.

QUIET OPERATION & SAFE

This mosquito killer is extremely safe and hygiene. No high-voltage electric and no zapping sounds; eliminates mosquitoes quietly and safely. Safe to use 24/7 and may be used at areas with kids and pets. The life of the lights is over 10,000 hours.

INCREDIBLE BENEFITS

 Long Life CCFL Light	 High Quality ABS Plastic
 Quality PCB	 Mosquito Killer with Warranty
 Strong Suction Fan	 Indian Power Plug
 Excellent Service	 Economical

EASY TO CLEAN

This mosquito killer is simple to clean; dead flies get trapped in a neat hidden tray located at the bottom of the device. To clean, simply remove the tray and wash with warm water; let it air-dry and it's ready for its next fly catching session. Simple, effective and clean.

360 DEGREES SUCTION FAN

Mosquitoes flying at close proximity from any direction will be sucked into the insect trapper with the built in streamlined fan's suction power, very effectively;

CCFL PEST CONTROL

It uses CCFL technology with 365NM wavelength light to attract mosquitoes and bug, which has a fatal attraction for mosquitoes and can achieve better trapping results.

PERFECT PRODUCT FOR HOME

H O W I T W O R K S

Step 1 - Light

CCFL lights attract mosquitoes and strong wind motors suck mosquitoes into the machine.

Step 2 - Powerful Fan

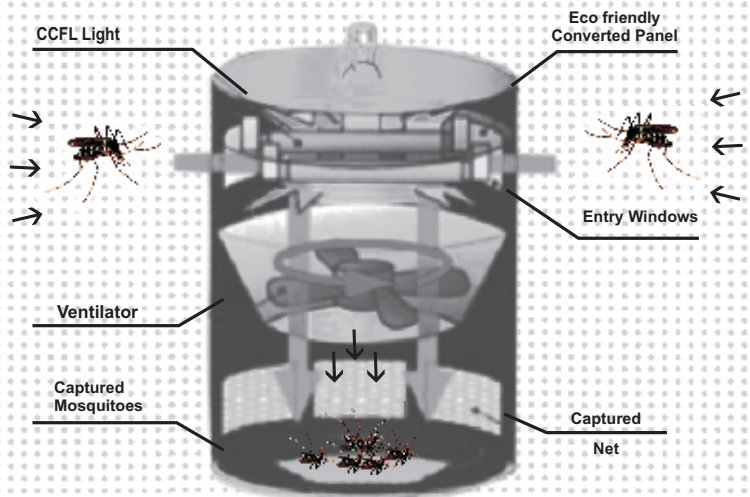

Powerful airflow fan make vortex catch mosquito in a moment.

Step 3 - Blocking Funnel

The funnel prevents escaping devices to ensure that mosquitoes do not fly away.

Step 4 - Dehydrating Grills

Large mesh storage grill holds mosquitoes to make them dehydrate and then die. Air Drying System.

Dead Mosquitoes

WAKE-UP FRESH AND HEALTHY, every morning.

vanishmart[®]
MOSQUITO KILLER

A mosquito so safe and silent that it lets you sleep in peacefully, and waking-up you and your loved ones fresh and healthy.

1 Switch on the machine 3 hour before going to bed.

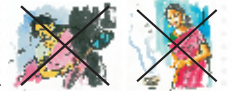

2 Use the machine in pitch darkness

3 Turn the bottom of the machine into anti clockwise direction to see dead mosquitoes.

4 Run the machine throughout the Night (5 pm. to 7 am.)

Mosquito Killer Features

- Light soft and work quietly, no noise
- Power consumption is very low
- ABS material is environmental, safe and durable
- CCFL light with 360-400nm purple light can attract mosquitoes or other insects easily
- Low voltage is power-saving and safe to use
- Mute fan provides a nearly silent sleeping environment to ensure you can sleep well
- Powerful airflow of fan can make vortex to kill mosquitoes safely and easily by air drying and dehydration
- Straight air flow can pull powerful mosquitoes fast
- Cable with USB interface can be charged easily by tablet, power bank or phone charger with 5V / 1-2A output * Only in USB Model

**DETACHABLE TRAY DEAD FLIES
GET TRAPPED IN A NEAT HIDDEN**

Dead mosquitoes and flies are collected in a neatly hidden tray at the bottom.

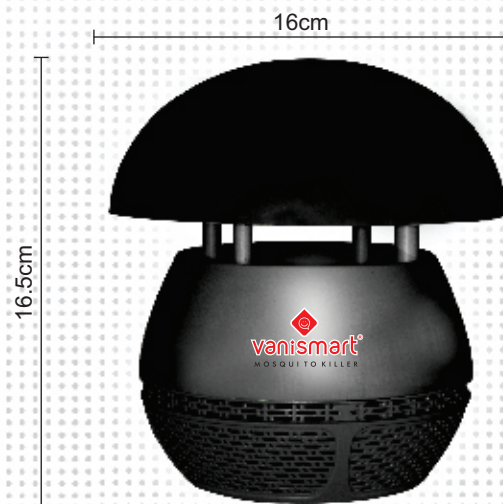

ATTRACTS, SUCKS, DEHYDRATE & KILLS **WITHOUT** SPLASHING A DROP OF **BLOOD.**

A Photocatalyst Mosquito Killer
that kills mosquitoes without harming
environment and vicinity.

Product Parameters

Material	ABS
Weight	400 gram
Size	16cm x 16.5cm
Color	Black
Output	12 V
Power	AC 230V
Technique	Thermal
Light Source	360-400nm
Applicable Area	400 sq.ft
Cable Length	3.6 feet / 1.1 meters

One Simple Product With Multiple Usages

Real People. Genuine Feedback.

When I received this item I noticed that it was for indoor office use. This was not something I was aware of at the time of purchase. I plugged it in and turned it on, no worries though, It began glowing a bit purple and a fan quietly ran inside. I left the office at night, and when I returned there were no mosquitos to be found all were inside the product. I'm excited to use this for my home!

Thousands of mixed reviews regarding this product. However, I found that when used as thsi product, it is effective in attracting and killing mosquitoes. We use it in a small room, as you enter the house- where bugs get inside when opening the front door. I would not expect it to work outside or in a much larger area but it worked. I'm satisfied with the product.

My house is near a creek and I kept getting annoying mosquitos indoors. This product did the trick! I was skeptical but it did catch them. Amazing product. Works better than I had hoped. No mosquito or flies at home, but I am going to camping in August. Can't wait to use it and stay comfy in the tent. This is better than those chemical spray, I can't tolerate the smell of chemical.

Mosquito Killer is the No.1 choice by home owner, office team, pest control company and hotel owners worldwide.

Try this product and you will love it, because thousands of people already use them and recommend about the results.

Excellent Performance
எங்க வீட்ல 60 கொசுவுக்கு
மேல முதல் நாளே
பிடிச்சிருச்சு !

ஆச்சரியமாயிருக்கு !
எல்லா கொசுவையும்
பிடிச்சுருச்சு !!
Thanks to Vanismart

கொசுவை பிடிக்கிற மாதிரி மெஷின்
இதுதான் முதல்முறையா நான்
பார்க்கிறேன்! 200 கொசுவுக்குமேல
எங்க வீட்லபிடிச்சுருச்சு !!

Good Technology.
I slept well yesterday.
Thanks to Vanismart.

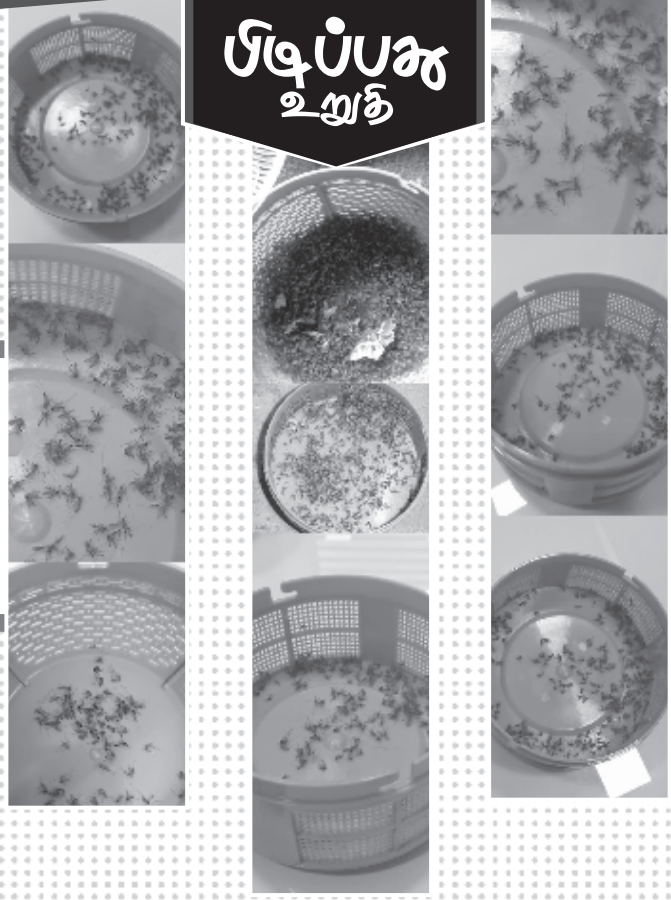

கொசுவை விரட்டாது, பிடித்து கொல்லும்...

பிடிப்பை உறுதி

PROCEDURE

பயன்படுத்தும் முறை

- மெஷினை தரையிலிருந்து 4 முதல் 6 அடி உயரத்தில் ரூமில் ஒரு மூலையில் (அ) ஒரு ஓரத்தில் வைக்கவும்.
Keep the Machine 4 to 6 feet height from the floor level and corner of the room.
- அறையில் அனைத்து லைட்களையும் ஆஃப் செய்து முழுமையான இருட்டில் பயன்படுத்தவும்.
Must need pitch darkness to catch Mosquito.
